Committee: House Committee On Rules
Measure: SB1583

I STRONGLY OPPOSE SB 1583

This isn't about banning books, this is a moderating AGE-APPROPRIATE reading materials and curriculum in schools and giving local school boards and parents the decision-making power. Materials being brought into schools today is blatantly pornographic, sexually confusing literature that does more harm than good. Studies find that the majority of children over 13 have already been exposed to pornography, why would we allow the government to mandate sexually explicit material in places of learning and add to that statistic? There isn't anything remotely related to protecting kids behind this bill. Exposure to pornographic, sexually explicit material is damaging to kids, period.

Stop the madness and protect our kids. Vote no on SB 1583!
