Measure: SB1583

I oppose passage of SB1583.

Passage of the bill will prevent local school districts from objecting to indoctrination material that is so egregiously one sided it does students a disservice.

The verbiage employed in the bill suggests that school districts cannot prohibit or refuse material if the subject is a class of people explicitly prohibited from discrimination.

Therefore, would passage of the bill allow the school districts to share the following material, showing alternate viewpoints?

Local school districts should have the freedom to decide which curriculums to use versus being dictated by heavy handed ideologues from the state.
