

Submitter: JACQUELINE ARN
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

Why are we allowing pornography to be put in our public schools? We are not asking for book banning. These materials can be purchased through any book store by adults. Many of these books are being produced in comic book format to entice children. We are educating and exposing our young children to all manner of sexual practices.

Our reading and math education scores continue to drop in the state and children are allowed to graduate without being able to read or compute basic math.

Again--I ask why is pornographic picture books acceptable for children in grades kindergarten through 12th grade?

Vote no on SB 1583
