

Submitter: Sharron50 Noone  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: SB1583

As a voter in Oregon for about six decades, I applaud SB1583 and its prohibition against banning books based on the prejudices of small interest groups in the community. Restricting access to information about the real world is a common method of radicals who try to make sure that people of all ages never get to engage with those of different demographics or beliefs. Having grown up in such a group, I know the length of time it takes to overcome this brainwashing as well as the angst it can cause. Please pass this bill and thank you all for your efforts and time.
