Committee: House Committee On Rules

Measure: SB1583

The curriculum decision needs to be left up the individual school boards. I firmly disagree with some of the material being included for the sake of diversity. There is no reason for kindergarten and elementary school age children learning the "art of masturbation" and anal sex. I have seen other category textbooks that push an agenda that not everyone is in agreement with. None of these things are going to be beneficial in raising the reading and math levels of the students.
