

Submitter: Dan Patterson

On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

There is material that young children are not ready to view or read. This Bill is an attempt to remove control from parents and school boards. The teachers unions do not have our children's best interest at heart. In years past folks became teachers because they were genuinely concerned for children. That in a great deal is not the case. Teachers may have good intentions but the union is telling them how to think and directs their efforts.

SB1583 is bad for our children and our state.

Dan Patterson
