

Submitter: Heather Gray
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

Dear legislators, in Jesus Christ's name, I strongly oppose SB 1583 A. There is no emergency!

The right for parents to have local control of their school districts, is a right that far outweighs the alleged "right" of children to be exposed to all things! Childhood and teenhood are temporary, and children will grow into adults eventually and will be exposed to adult information. There is no "need" to rush into that. Children are developing and do not have the physical, emotional, or mental maturity to process certain adult material and situations. Protect mothers' and fathers' rights to discern what is best for their children. We know them best.
