

Submitter: Karen Goodness
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

SB1583 this bill takes away Parental rights. I oppose SB1583 because it is discriminatory against Christian values and values of other religions. Putting obscene sex acts into school curriculum, books, and libraries and online is pornographic and there already is a law against pornography. You are trying to call people who don't like your bill discriminatory but people who oppose SB1583 are caring, wise and cautious. Troubled youth do not need to change their sex or do drugs or anything else to face their problems. Pushing sex acts in school is dangerous and does not promote education or a way to make a living in the future.

SUBJECT: OPPOSE SB1583 3 Articles:

1. "War on Children" free movie this week only (Documentary that exposes how it got started and who paid for it.)
2. University of Florida Terminating all DEI
3. Kentucky Rep Slams Hateful Legislation

'The War on Children' is free to view this week 3/6/24 courtesy of its producers (It's about the birth of the LGBT movement and who paid for it.

PS When I was a troubled youth it would not have helped me if you affirmed my problems when I was using LSD, heroin, speed and alcohol to deaden my emotional pain. No one tried to help me get to the root of my problem. SB1583 is affirming troubled people and blocking counseling and putting them on puberty blockers to young troubled children who can't smoke, drink or drive. God doesn't make mistakes. You are the ones pushing the LGBT agenda at such a young age. You are kidnapping their youth. Give students a chance to grow up naturally. Let their parents raise them. They do not need to be given puberty blockers and see sex books in K-12. It's like kidnapping. Please stop SB1583
