

Submitter: Carrie Matthews

On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

SB1583 strips local school boards of their authority over curriculum decisions and limits their ability to choose textbooks and instructional materials. This is an encroachment on local governance and autonomy in education.

Shame on everyone named in this bill for abusing the short session. You should not be allowed to run again. You violated your oath and go against everything our forefathers died fighting for in this constitutional republic.. Communism had no place here. Do not pass SB 1583!
