

Submitter: Richard Vireday

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB4026

Still living close by the affected areas, this is a bad bill. The pressures by population on this productive farmland, and the greenspaces that it provides both for the inhabitants, human and wildlife, is irreplaceable. Please, kill this bill. It does nothing, but possibly create future legal issues such as lawsuits. I was a resident of the Helvetia area from 2008 till 2023, and still enjoy and love the area. Thank you
