

Submitter: Linda Robinson
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

Whenever I talk with anyone about the state of our public schools the discussion becomes very dark!! Oregon's schools rate at the bottom! I am a grandmother and mother of 2 children who are teachers in Salem-Keizer School District. Therefore I know many teachers who either quit or can hardly wait to retire because of the disruptive conditions. The indoctrination of race and gender ideology has taken over the direction of our schools which is obvious! We need to return to teaching only basic subjects like reading, writing, math without gender and race diversity, etc. in all the subjects! This bill should die!
