Committee: House Committee On Rules

Measure: SB1583

I support the state stepping in and preventing the school boards and overzealous religious parents who think they have a right to control what anyone else is able to read and be exposed to. These are not decisions that uneducated religious zealots should be allowed to make for others. The USA is quickly devolving into a religious state controlled by evangelicals. I believe in freedoms. Freedom to be educated, freedom to dream, freedom to think. Freedom for people to be who they are without being managed or controlled by those who don't understand basic biology and science.

Please pass SB1583 to support the freedom of education in our schools.
