

Submitter: Brent Pawlowski
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

The right to have a say about what specific curriculum is taught, is undermined with this bill. Senate Bill 1583 is an attempt to strip away choice and control from local school boards and, by extension, parents. It is clear the state's goal is to neuter school boards, by removing their role as representatives of the community, and give complete control over K-12 Public Education to the state legislature and the Oregon Department of Education.
