

Submitter: Kristen Dill

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB4130

Non-compete contract clauses have made it more difficult for me to work as an anesthesia provider in surgical settings. I have been approached multiple times about providing anesthesia services for surgery centers but been unable to provide those services due to these clauses. This decreases my ability to work but more importantly, makes it more difficult for patients needing surgery to get the care they need.
