Measure: SB1583

I strongly support SB 1583. Our nation is built on the idea of individual rights and freedom.

As a grandparent, I believe that my grandchildren should have the right to read books of their choice. I trust their parents to guide them in their reading. I do NOT trust other people to make those decisions for my grandchildren or their parents. Banning books and this type of censorship is an affront to our rights as citizens. Special interest groups should not be making these decisions of what others can and cannot read. This practice of banning books must be stopped now. I urge you to pass SB 1583 to protect our citizen rights.
