

Submitter: Krista Farmer

On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

Education is the greatest gift children can receive. Education provides opportunities and explores possibilities. The best education prepares children for life in a complicated world by offering the most choices for information, rather than omitting and discriminating against views, beliefs, abilities, etc. that are not a part of the majority's personal experience. Please pass SB 1583 so children in Oregon can develop a greater understanding of the world's complexities and prepare for the challenges of sharing this world with many different people.
