

Submitter: Sarah Brandt

On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

As a retired teacher and a current city library board member, I am completely opposed to censorship of literature of any kind. Parents need to take more responsibility for what their children read, but most parents leave the raising of their children to teachers who need to present information in a non biased manner. Any regulation of books is reminiscent of Nazi Germany. We in Eastern Oregon are not all closed-minded. Thank you for paying attention, Sarah Brandt.
