

Submitter: David Wall

On Behalf Of: Mr Oregon Supports HB 4156

Committee: Joint Committee On Ways and Means Subcommittee On Capital Construction

Measure: HB4156

I SUPPORT [HB 4156].

[HB 4154] updates the "Stalking Statutes" and revises penalties for the perpetrators.

I do not know if Police take DNA samples and log the results into the national database of the deviants they take into custody.

The Perpetrator's DNA would serve to expedite investigations of prior arrests and or convictions throughout our Nation.

If possible, definitive civil judgements should be designed to hurt, punish and deter.

David S. Wall

Mr. Oregon Concurr, "Punishments for stalking (along with other heinous crimes) should be swift, certain and severe."
