- Uses of the Walla Walla Basin aquifer

**EFFECT OF AMENDMENT:**

No amendment.

**BACKGROUND:**

The Walla Walla Water 2050 Strategic Plan is a 30-year plan to improve stream flows and water supplies in the Walla Walla watershed. The plan uses a water resource management approach and engages stakeholders in both Washington and Oregon to develop a long-term plan for water use in the basin. The Walla Walla Basin Advisory Committee provides policy and project development advice on implementation of the Walla Walla Water 2050 Strategic Plan. WWBAC includes participation from Washington State, Oregon State, the Confederated Tribes of the Umatilla Indian Reservation, and local governments.

Senate Bill 1567 directs the Water Resources Department to collaborate with the Confederated Tribes of the Umatilla Indian Reservation and the State of Washington to implement and guide bistrate water management in the Walla Walla River Basin pursuant to the Walla Walla Water 2050 Strategic Plan, with advice from a Walla Walla River Basin advisory committee.
