

Submitter: Sue O'Halloran

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1537

Dear Senator Gorsek:

Although Urban Growth Boundaries are a not hot topic of conversation here in our East Multnomah County Area, it is a critical discussion on a state-wide basis of land available for housing. As you know housing is an absolute need here in our area and we are working as best we can we what land we have available. However, there ae some areas where expansion of the UGB can make a substantial difference in available land. We encourage your support of this measure SB1537 as a major piece of what we need to do to have land available for housing. Thank you for a "yes" vote on this measure.
