

Submitter: Elizabeth Graser-Lindsey

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1537

Please oppose or modify SB 1537 with its large UGB expansion and bypass of Oregon's land use laws. Large amounts of land are already inside of Oregon's UGBs. Expanding outside the UGBs increases the cost of infrastructure by making development distant and irregular and it most impacts agricultural and natural resource areas the state needs to protect.
