

SB 1537

Chair Jama, Vice-Chair Anderson, and members of the Committee

For the record my name is Todd Adams, the Vice-Chair of the Political Affairs Key Committee at Oregon REALTORS, I am a REALTOR based in Beaverton for the last 11 years, and I am here today in support of SB 1537.

In order to meet Governor Kotek's goal of producing 36,000 homes per year for the next 10 years, Oregonians will need to take bold steps to solve our housing crisis this session. SB 1537 will help to address the current land constraints, make the necessary adjustments to our planning and permitting system, increase housing production, and allow for the building of affordable housing state-wide.

I encourage your support of SB 1537 to help in positively impacting the lives of Oregonians across our great state.

Thank you for the opportunity to provide these comments today.
