

Submitter: Robert Sisk

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1537

I oppose any part of SB 1537 that reduces any protection of our land use and diminishes protection of open spaces, buffer & green areas and controlled growth boundaries . I specifically request the UGB expansion provision in SB 1537 be removed. Our quality of life in Oregon, dependent so much on controlled growth and the protection against sprawl by safeguarding green spaces, buffer zones, farm land and natural resource areas, such as forests, lakes & other waterways, and coastlines and their proximities needs to be safeguarded. That is a priority.
