

Submitter: Robin Drawhorn

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1537

I oppose weakening Urban Growth Boundaries. I have always been proud of our state for standing up to the developers who are all about profit. We must think of our farmland as a precious commodity that we must protect for future generations. You see states that have no urban growth boundaries and development everywhere, coming to Oregon is so refreshing. The beauty around us should make us want to fight to protect what we have and not wait until it is gone. Be a Tom McCall and be wise in how we plan for the future
