On Behalf Of: WE THE PEOPLEA

Committee: Senate Committee On Veterans, Emergency Management, Federal and World Affairs

Measure: SB1577

Dear Lawmakers,

This is going to lead to people being signed up to vote who have no business voting just like with the DMV auto voter system which has led to illegal immigrants being registered in every state that runs that kind of system. It will be even worse with auto voter systems for college students which will not only register illegal immigrants and criminals/mentally unstable, but it will assuredly register people who are already registered to vote in other states. This is pure stupidity folks. Leave the registering to vote process to those who want to vote and are in fact eligible to. Please vote NO on SB-1577. Thank you.

Sincerely,

Chad Kernutt
