

Submitter: Lisa Scrimenti

On Behalf  
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1577

I strongly OPPOSE SB1577.

Oregon's data exposures of 2023 and prior have not been addressed properly.

Please address that situation as soon as possible.

I see this opening a door to more non-residents getting registered to vote. Only US citizens should be allowed to vote, under the 15th Amendment and Oregon's Constitution. This bill would be unfair and unconstitutional. Finally, the benefits are miniscule compared to the risks. Any US citizen and resident of Oregon who is 18 years old and who is able to apply for admission to public institutions of higher education would also be able to register to vote if they wanted to. It is a very simple matter to go online and register in just a few minutes. This bill is unnecessary and fraught with danger.
