

Submitter: Jeff P

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1537

UGB's and their concepts stand as strong or stronger than when first developed, do not undo or compromise their strengths and benefits and lose sight of what actually makes Oregon a desirable state. There are myriads of other approaches that will benefit people and development within this state that meets the needs - just because it is easy, does not make it right. Sprawl is shortsighted - look at any west coast metropolitan region or most all of the east coast.
