

Submitter: Susan Haywood

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1530

I am in favor of allocating money to help people with necessary household items.

I am particularly in favor of entities such as Community Warehouse so that we share with our neighbors and less goes into the waste stream.

Thank you for helping people get back on their feet. We need to create homes and reduce the number of people camping on the street.
