and World Affairs

Measure: SB1577

The Motor Voter began to register drivers. What documentation is used to register US Citizens to Vote at the DMV? I noticed when I went to the doctor's office in January that there was a form asking me if I wanted to Register to Vote. How many people that are not US Citizens that are getting free medical care when US citizens have to pay for is medical care are signing up to vote in the doctor's office. How are these people verified. Anyone can answer on the Voter Registration "Yes" I am a US Citizen. Now you want to have foreign students that are not US Citizens to register to vote. These students do not have any connection to Oregon and should not be allowed to vote. Oregon has become a very untrustworthy state when it comes to registering people to vote. I bet I could register my dog and they would receive a voter registration. I am opposed to SB1577.
