

Submitter: Genet Friess

On Behalf  
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1548

I support letting go of the old tradition of daylight savings. It is hard for many people to adjust twice a year, mentally and physically. There is no practical reason for this change now that most of us are not farmers. Other states have made this decision and have adjusted without an issue. Please support this bill. Thank you.
