

Submitter: Catherine Farris

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

It would be incredible to not have to switch between standard time and DST anymore. Everyone hates doing it, it's been proven to be bad for people's health. I know a lot of folks would rather stay on DST, but I agree that since that requires Congressional permission there is no way that's happening any time soon. I'd much rather be on Standard time permanently than keep swapping back and forth while Congress tries to get its act together. This issue is probably the one thing just about everyone everywhere can agree on, it would be a shame not to act on it.
