

Submitter: Laurel Hines

On Behalf  
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1548

I am totally opposed to this measure. The legislature should not be deciding this for all citizens. This is an important measure that intimately affects all of us, and should be debated among all Oregon citizens, and all given a chance to vote on it. Too Oregon citizens do not even know about this bill. It should not be snuck through without more public debate. I believe we should wait until we can get federal approval to end Daylight Savings time in the way that preserves the most evening daylight so that kids can have daylight for outside sports after school, and working people have more daylight after work for biking, walking, exercising their dogs, working outside, etc. We should also be consistent with Eastern Oregon and the whole west coast.
