

Submitter: Michael Johnson  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: SB1548

I strongly advocate for adopting year-round standard time. My family, residing near the Arizona-Nevada border, has not experienced the issues opponents fear. While some support year-round daylight saving time, as seen in Oregon's voter approval, we await congressional action for the change to take effect. The prolonged process raises concerns about the continued inconvenience of clock changes while awaiting federal decisions.
