

Submitter: Cody Keast

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

I strongly oppose switching permanently to standard time. This creates a logistical nightmare for people who work in other states, especially when Vancouver and Portland's economies are inextricably linked.

Moreover, we want permanent daylight savings time. Getting rid of the switch just for the sake of getting rid of it is not logical because it is not what Oregonians want and it is not what they asked for. Until Congress approves the switch, we should keep changing between daylight/standard.
