

Submitter: Richard Schuster

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

It is time again for Oregon to set an example for the country, this time abandoning changing clocks twice a year. Public opinion even at a national level supports abandonment of time switches but we see the Sunshine Protection Act getting ignored. Let us take the step away from changing clocks that is available to us, and adopt permanent standard time. I trust our neighbors will be motivated to follow our example.
