

Submitter: Steve Scheide

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

Opposed to standard time for all 12 months. Ridiculous to think there will be no financial fallout from this given the number of residents near the borders that work across state lines in either WA or CA. Waste of day light given how early sunrises (4:15am) could occur. This is an obnoxiously shameful use of legislative time which could be spent fixing other pressing issues. If approved will seriously force consideration of relocating.
