

Submitter: Christina Kessler

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

I support abolishing the time change and staying on standard time. I would really be okay with either as long as the time doesn't change anymore. It's hard for me to make the time adjustment & I feel even worse for people with sleep problems or kids & pets that are on a schedule. In my opinion, switching back & forth just isn't necessary anymore.
