

Submitter: Kelly Brady
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1548

Please, we need to stop changing the time twice a year! And staying with Standard time is by far the best and most natural way to do it. I would love to see the clocks say Noon when the sun is actually at its mid-point for the day; and I would hate to see it take until 9:a.m. to get light in mid-winter.

Please pass this bill for the sake of sanity.

Thank You,
Kelly Brady
