

Submitter: RUBY PANTALONE
On Behalf Of: I think it is important that we have regular time
Committee: Senate Committee On Rules
Measure: SB1548

It is important that we have regular time. When we change time it makes our sleeping off and it takes weeks to get our body regulated. It is not only hard for us older citizens but also for the children. My grandchildren have to go out in the dark to school. That makes it harder for them to do their school work. Please vote to have it regular time year round.
