

Submitter: Jean Aguerre
On Behalf Of:
Committee: House Committee On Rules
Measure: HB4024

Reference: Amendments to HB4024

Chair Fahey and Members of the House Committee on Rules

My name is Jean Aguerre, I oppose HB4024. For 40 years the issues most important to me as a civically engaged citizen have been and remain campaign finance reform and climate change.

Delivering another trifecta win (HB4024) for business, labor and the two major political parties in lieu of IP9's demands of transparency and closing special interest loopholes to begin leveling the campaign finance playing field is unacceptable legislative action.

HB4024 guarantees the same big-money interests run the same show; serial failure to meaningfully legislate or regulate industry practices that are plunging the planet deeper into climate crises.

Campaign finance inequity is not campaign finance integrity as demanded by IP9 and more than 100 thousand Oregon voters. Please join us in supporting campaign finance integrity by voting against HB4024.
