SNAP and Medicaid Changes: State and Local Fiscal Implications

- **SNAP:** Potential for clear and direct state fiscal impact starts FY28.
 - New state cost share based on state payment error rate.
 - **Error rate below 6%:** No benefit cost share requirement.
 - **6%-8% error rate:** State required to pay 5% of SNAP benefits.
 - **8%-10% error rate:** State required to pay 10% of SNAP benefits.
 - **10% or higher error rate:** State required to pay 15% of SNAP benefits.
 - Higher state admin costs: States now cover 75% of admin costs.
 - Schools: Possible reduction in SNAP eligibility could affect SNAP as proxy for free or reduced-price meals or state school funding formula .
- **Medicaid:** States fiscal impacts could vary widely, change over time
 - Reduced benefits, lower enrollment achieves majority of fed cost savings.
 - Many provisions phase in over years.
 - Increased costs for states less certain, depends (partly) on:
 - Reliance on state provider tax, and use of those tax revenues.
 - State choices on benefits coverage (if reduced by federal changes).
 - Schools: No changes to billing for Medicaid services, impacts possible.

Scholarship Tax Credit: Overview

- Individuals who donate to non-profit, scholarship-granting organizations can receive a dollar-for-dollar tax credit for up to \$1,700.
 - Donation → SGO → Families → Schools
- **Student eligibility:** Household income up to 300% of the area median income.
- **Eligible expenses:** Tuition, tutoring, and other educational supports for both private and public schools (same activities as Coverdell Education Savings Accounts).
- **State role and impact**

 - Federal credit reduced by similar state tax credit.
- Department of Treasury directed to create regulations on SGO requirements and state lists- timeline TBD.
- **AND:** 529 Plan expansion covers expenses such as learning materials and tutoring fees.

Scholarship Tax Credit: Questions to Consider

- **Can legislatures choose to opt-in or out?**
 - Likely yes, based on statute.
 - “individual, agency, or entity as is designated under State law”
 - Legislation introduced in IL, PA, and NC.
- **Can states develop criteria for eligible organizations?**
 - Likely to be addressed in regulation or guidance.
 - Stark differences in statutory interpretations.
 - General SGO requirements:
 - Provides scholarships to 10+ students who do not all attend same school.
 - Spends not less than 90% on scholarships.
 - Does not provide scholarships for anything other than eligible expenses.
- **Could states pass general laws on scholarships that would interact?**

Pell Grants

- **Workforce Pell:** grant expands to cover short-term (8-14 weeks), workforce-aligned programs.
 - Fed Role: Programs must meet outcomes measures (70%+ placement rate, 70%+ completion rate, value-added earnings).
 - State Role: Governors, with state workforce board, determine which programs qualify based on fed criteria.
 - Programs must prepare students for work in high-skill, high-wage jobs or in-demand industry sectors.
 - Programs must lead to recognized postsec credential, or additional certificates or degrees.
 - Implementation date of July 1, 2026- states like receive final regulations less than 3-4 months before.
- **Pell Grant Aid Eligibility:** Changes to determinations,
 - Excludes farm and small business assets from aid eligibility.
 - Exclude families with a Student Aid Index twice the max Pell from receiving grant.
 - Excludes full-ride scholarship from Pell eligibility.
