Joint Task Force on Regional Behavioral Health Accountability

Meeting #8

Monday, October 6, 2025

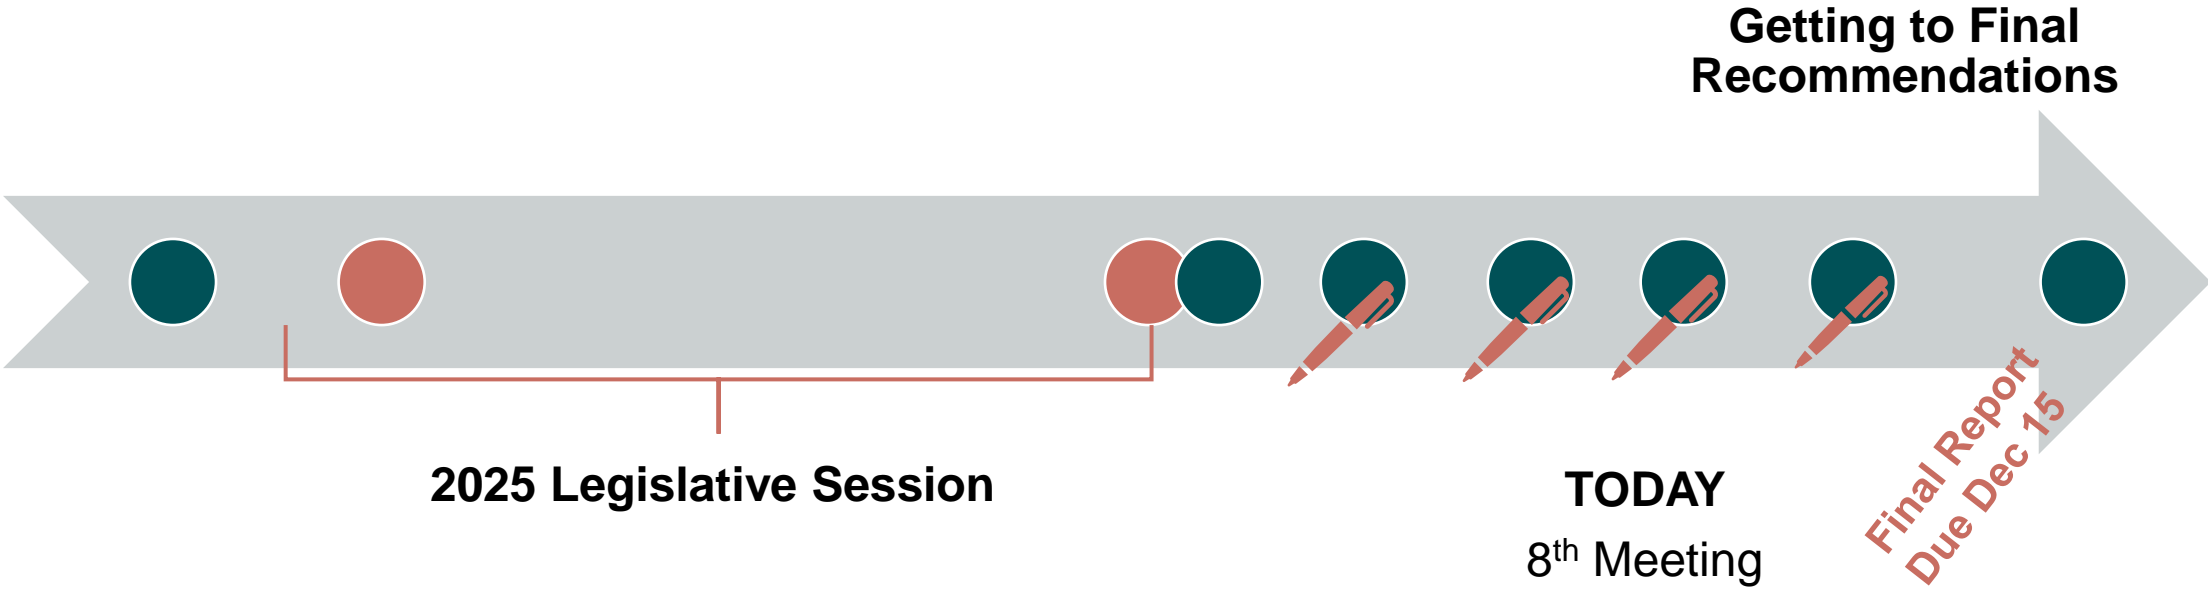

Agenda

October 6, 2025

- Welcome and Roll Call
- Draft Recommendations Background
- Task Force Discussion

Task Force in 2025

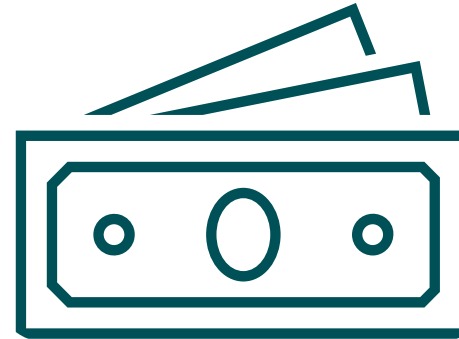

House Bill 4002

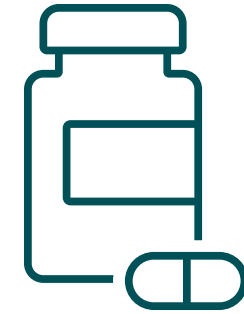

Improve **collaboration and accountability** across federal, state, and local behavioral health and substance use disorder treatment programs and funding

Ensure **equitable outcomes** in publicly supported treatment settings across Oregon communities

Provide greater **cost efficiencies** in the continuum of care of Oregon's behavioral health system

Establish **broad access to methadone** and other opioid use disorder medications...to measurably increase engagement in treatment

Initial Member Priority Areas

ACHIEVING A
STATEWIDE BEHAVIORAL
HEALTH SYSTEM

ALIGNING
GOVERNANCE AND
FUNDING STRUCTURES

INCREASING SYSTEM
TRANSPARENCY

Task Force Outcome Goals

Concrete recommendations with measurable outcomes

Measurable improvements across Oregon's behavioral health system

A vision for Oregon's behavioral health system

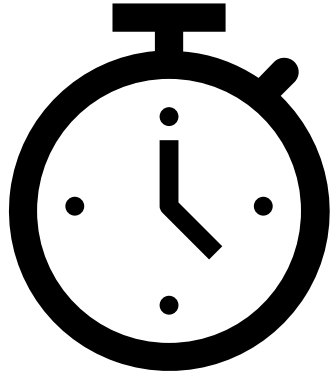

Revised Problem Statement

Funding decisions in Oregon's behavioral health system are made based on a variety of factors specific to the funding source and without consistent collaboration across these entities. While there is care coordination at the ground level, at the systems level there is a need to improve transparency and collaboration to support efficient funding across the system, *particularly in coordinating for individuals with severe mental illness or subject to court-ordered treatment.*

Intervening Events

**Delay in new CFAA
implementation**

Summer 2025 → January 2026

HR 1

July 2025

CFAA Updates

- Moving from a 2-year Agreement to a 6-year Agreement
- Replacing Service Elements with eight Core Service Areas
- Leveraging the Local Plan and Budget (ORS 430.630 and ORS 430.640) to allow LMHAs/CMHPs flexibility to allocate CFAA Funds as needed to meet the requirements outlined in the CFAA
- Focus on outcomes
- ROADS (Resilience in Outcomes Analysis and Data Submission), the system of record for all agencies and facilities in the State of Oregon required to report on behavioral health services, will be used as the primary source of data
- Quarterly Local Plan Implementation & Financial Expenditure Reports will collect data not available through ROADS or other sources

HR 1

Eligibility Changes

- Work/community engagement requirements
- More frequent eligibility determinations
- Cost-sharing requirements

Financing Changes

- Provider tax limitations
- State directed payment restrictions

ACA Tax Credit Changes

- *Set to expire at the end of 2025*

Potential Recommendations

Opportunities in an Uncertain Environment

Aligning Current Work

- Align existing work and expectations around behavioral health coordination and flexibilities
 - Existing Legislation
 - Ask that consolidated CHIP reporting (HB 2208) inform grant/other funding decisions
 - Ask that Residential Behavioral Health Capacity Program (HB 2059) guidelines expressly prioritize investments for specified populations or diagnoses
 - Ask HB 2015 report include information about how the flexibilities studied could impact service availability

Opportunities in an Uncertain Environment

Aligning Current Work

- Align existing work and expectations around behavioral health coordination and flexibilities
 - New CFAAs
 - Track implementation of new CFAAs to ensure goals are being met

Upcoming Task Force Meetings

Next meeting is **Monday, November 3rd**

Thank you!
