Attachments: [2025 JPEA Report on the Adequacy of Public Education Appropriations DRAFT - REVISION 2.pdf](#)

Good morning members of the Joint Public Education Appropriations Committee,

Attached you'll find Revision 2 of the draft JPEA Committee report. This revision includes the following changes, none of which alter the substantive findings in the report:

- **Page 10 according to the page numbers on the bottom of the page**
 - Adjusted figure 1 title
 - Adjusted 2025-27 subaccount numbers to remove beginning balances and reflect only the amount of new funding transferred to subaccounts.
- **Page 29 according to the page numbers on the bottom of the page**
 - Replaced figure 18 to show statewide annual average salaries by position instead of teacher compensation.
 - Inserted this line into paragraph: Figure 18 shows the annual average salaries by position for the 2024-25 school year.
 - Changed the word "salary" to "compensation" in the paragraph.

This report and this email detailing the changes will be posted to OLIS shortly.

Kind regards,
