

SUBCOMMITTEE RECOMMENDATION

Item 44: Department of Land Conservation and Development Interagency Agreements

To: Ways and Means Full Committee
From: Natural Resources Subcommittee
Carrier: Representative Owens

The Natural Resources Subcommittee heard a request from the Department of Land Conservation and Development to increase Other Funds expenditure limitation by \$202,013 for interagency and cooperative agreements.

This includes agreements with the Department of Administrative Services related to updating urban growth boundary and zoning datasets and expanding a contract for housing data collection. The Department of Land Conservation and Development will also work with the Oregon State University Joint Fire Science Program on a project to help develop land use and other risk reduction options to promote wildfire resilience.

The Natural Resources Subcommittee recommends that the Joint Interim Committee on Ways and Means recommend including an increase of \$202,013 in Other Funds expenditure limitation for the Department of Land Conservation and Development in a budget reconciliation bill during the 2026 legislative session for expenditures related to interagency agreements.
