If you are listening to the whole of Oregon, if you listen to your counterparts, if you opened your eyes n saw the disaster your decisions have made our once beautiful State...You would hear loud n clear... We can no longer afford your special interests. I'm not an accountant, I'm not a politician.. however the more you take from me, the tighter my belt has to go.. n I think it's high time.. you tighten your instead!! It's treasonous to take from me to give to illegal aliens, it's treasonous to take from me/ us to go against our voices. You are a representative of the people not just the party your affiliated with but the whole of your districts. Shunning common sense to follow along party lines is not only divisive and destructive but also tyrannical.
