Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

To the special committee on Transportation Funding.

At this point, I see absolutely nothing to support in LC 2 ( oh wait, it is still a nothing burger bill ).

HB 2025 proved to be quite telling... and the Transportation committee was less than professional from the top down.

I don't need more roundabouts... I need maintained roads. How is it Gov Kotek comes out threatening to layoff 500 ODOT crews (feels like coercion to me).

We are now 4 days before in person public testimony on 25th... and the public nor Republican legislators have even seen LC2 !

Citizens were going to be excluded from the 1 day process and kept out of the building due to construction ? ( I AM OFFENDED, SHAME ON THE LEGISLATIVE BODY HAD THAT BEEN THE CASE !)

If I could... I'd ask for a real audit oof ODOT... not a slush fund of 15 Million or whatever the real number turns out to be.

The Legislature gave Tren de Alegra \$2.3 Million for a rehab for drug addicts in Lk Oswego ??? ( I have never gotten a lone but what I was background checked )

THIS IS SO TELLING OF THE LEGISLATURE (RECKLESS).

To know ODOT over spent like \$1.6 Billion, (money it never had) SHAME ON THE SPECIAL SESSION PARTICIPANTS, SHOULD THIS PASS WITH OUT A AUDIT !

Multnomah is bankrupt... and we gave \$Billions of Tax \$\$\$\$ to increase the problem not lesson it.

I STAND WITH EVERY TESTIMONY I SEEN ON LC 2... NO NEW TAXES !
