Topic: LC 2

Please no more new fees and taxes. My paycheck has not recovered from the inflation of the Biden presidency. Cost of living has soared but my pay has never caught up. This taxpayer well is dry. You have plenty of tax money as it is you just have to make better decisions in its use.

Focus on essentials such as road maintenance and repair without pet projects such as light rail and more bike lanes. Also quit throwing money to illegal aliens, citizens first until you fund essentials and take care of the citizens.

No new taxes and stop raising fees!
