Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I am here to say that you want to tax us to death for nothing given back. I am so sick of our money being your money. You do what you do with no accountability and this has to end. You work for us. It's time to let you go and put someone in who knows how to be for the people, not your own desires. Or you can just leave either way we need change!!
