Topic: LC 2

Our beautiful state is being ran into the ground, we're being taxed to death. We already have one of the highest taxed states and they keep demanding more. We're a double income family of 5, 3 young children, we can barely put food on the table these days. OUR CHILDREN ARE SUFFERING!!

In the last couple of years, we have struggled due to higher taxes and fees. We're barely making it, we can't handle anymore. Families shouldn't work themselves to death, be taxed more, just because Oregon Govt can't budget better. We're having to scrimp and budget, so should the govt. Investigate where our hard earned tax dollars are going already!!

Increasing our taxes is only burdening working families. We will have more homelessness, malnourished children and adults. People will not be able to thrive or barely survive.

No more taxes or tax increases!!! We're being pushed out of our home state! We've become California 2.0.
