Measure, Appointment or
Topic: LC 2

I'm 46 years old born and raised Central Oregonian my children (who I'm pleaded to leave Oregon) are 5th generation. Let us go #GreaterIdahoMovement or balance, the budget that you already have. You have a ton of our tax money, fix the education system. Give us school choice, fix o dot, audit them make it work with the money you have. The state is falling apart. It is last in education. We're losing another seat because population is going down. Fix it with the money you have. I'm sure you're a smart lady. Get it together. Stop raising our taxes, stop fining us over every little thing! Listen.

To the born and raised the state is unrecognizable! #independent the minute my husband retires with Oregon pers in 3 years we are getting out of here. We have poured our heart and soul. And volunteered and paid her Deschutes taxes, Since we were in our early twenties we are exhausted and poor.
